Registration Form – Record of Changes

1. Project Information

Project code	**FA26SE032**
Project name	Sales Collaborator and Affiliate Network Management System (SCANMS)
Team	Nguyễn Thành Thắng (Leader - SE184251), Nguyễn Đình Tuấn (SE182540), Nguyễn Phú Quý (SE180104), Phan Xuân Thịnh (SE184527)
Supervisor	ThS. Tôn Thất Hoàng Minh
Current registration version	Version 1.0 (Review 1 Approved Scope)
Proposed version	Version 2.1 (Post-Review 2 Realigned Scope & Immutable Standards)
Version	2.0
Date	08/11/2026

2. Changes

☑ Changes to the current registration form (6 architectural realignments detailed below)

No.	Section	Current content	Proposed content	Reason	Proposed by
1	CHG-01: Section 3.2.a Context & 3.2.b Product / Store Architecture	Described open multi-merchant marketplace with self-registration for external stores, separate shop withdrawal wallets, and public shop vouchers.	Realigned strictly to Enterprise In-House Multi-Store Collaborator & Affiliate System: 4 company-owned in-house brand stores (Sora Skincare, Aura Activewear, GreenBio Health, Lumière Smart Living) appointed solely by System Admin, locked category catalog, 2-tier variants with Floor Price guard (floorPrice), and exclusive KOL coupons only.	Ensures 100% alignment with the official project name (Sales Collaborator and Affiliate Network Management System - SCANMS) and eliminates open marketplace drift as instructed by Review 2 Council.	Nguyễn Thành Thắng
2	CHG-02: Section 3.2.b Features #2, #5 & 3.2.c Deal Negotiation & Commission Engine	Uncapped or additive commission rules with 7-day holding duration; static Media Hub for promotional assets.	Two-Stage Non-Stacking Commission Settlement & Bi-Directional Deal Negotiation: (1) Stage 1 pays 10% Base + Tier% after 14 days clean delivery (COMMISSION_HOLD_DAYS = 14); (2) Stage 2 holds KPI differential max(0, Deal% - (10% + Tier%)) in KPI Escrow until 100% KPI achievement; <=16% Shop Manager autonomous, >16%..25% System Admin escalation gate; real-time Socket.IO chat with direct media/file sharing (permanently replacing deprecated Media Hub).	Protects corporate profit margins against margin erosion, aligns with standard 14-day return warranty, and solves Council feedback regarding realistic partner negotiation and single marketing expense budget.	Phan Xuân Thịnh

No.	Section	Current content	Proposed content	Reason	Proposed by
3	CHG-03: Section 3.2.b Features #3, #4 & 3.2.d Conceptual & Logical ERD Traceability	Conceptual ERD depicted open marketplace entities; omitted foreign keys between ProductVariant and OrderItem, and allowed unauthenticated guest checkout.	Completed 5-layer Relational ERD: Customer mandatory for SalesOrder (1-N), SalesOrder to OrderItem (1-N), OrderItem to ProductVariant (N-1) with unitFloorPriceSnapshot, Store to ExclusiveDeal to CollaboratorProfile (N-N), and CommissionRule (appliedTierRuleId) + ExclusiveDeal (dealProposalId) to Commission with immutable ruleSnapshotJson.	Resolves Council feedback #3, #4, #5 on ERD broken paths, ensuring complete end-to-end auditability and zero attribution data loss.	Nguyễn Thành Thắng
4	CHG-04: Section 3.2.b Feature #6 & 3.2.f Cross-Platform Mobile Deliverables	Web-only portal scope without mobile companion support for field collaborators.	Added Cross-Platform Companion Mobile Application (React Native / Expo SDK 58 for Android) sharing the NestJS API: real-time Socket.IO deal negotiation chat, sample request & 14-day SLA tracking, Smart Link/QR/Vanity Coupon generator, two-stage commission balance monitoring, and withdrawal requests with 10% PIT withholding.	Delivers agile on-the-go workflow tools for external KOL/KOC creators and resolves Council recommendation on mobile affiliate tooling.	Nguyễn Đình Tuấn
5	CHG-05: Section 4.0 & Table 8/9 Workflow Architecture & Member Allocation	Disjoint workflows with KYC and Payouts separated as standalone items; multiple owners per workflow causing shared responsibility.	Consolidated into 5 Integrated End-to-End Main Workflows with exactly 1 primary owner each: WF-01 (Thắng: Staff & Store Provisioning, eKYC Maker-Checker), WF-02 (Thịnh: Product & Variant Catalog with Floor Price, Deal Chat <=16% / >16%), WF-03 (Tuấn: 14-Day Sample SLA, Smart Link/QR/Voucher, Secure Checkout & Anti-Self-Referral), WF-04 (Quý: GHN Fulfillment, Dual-Path 14-Day Returns & KPI Tracking), WF-05 (Thắng: Two-Stage Commission Settlement, 10% PIT Withholding, Napas Disbursement & Executive Ledger). Balanced to 100 test cases total.	Fulfills Council feedback #8 and #9 requiring clear end-to-end workflows and single ownership per workflow for unambiguous defense grading.	Nguyễn Thành Thắng & Nguyễn Phú Quý
